

Federated Union of Telecommunications Research Facilities for an EU-Brazil Open Laboratory

FUTEBOL

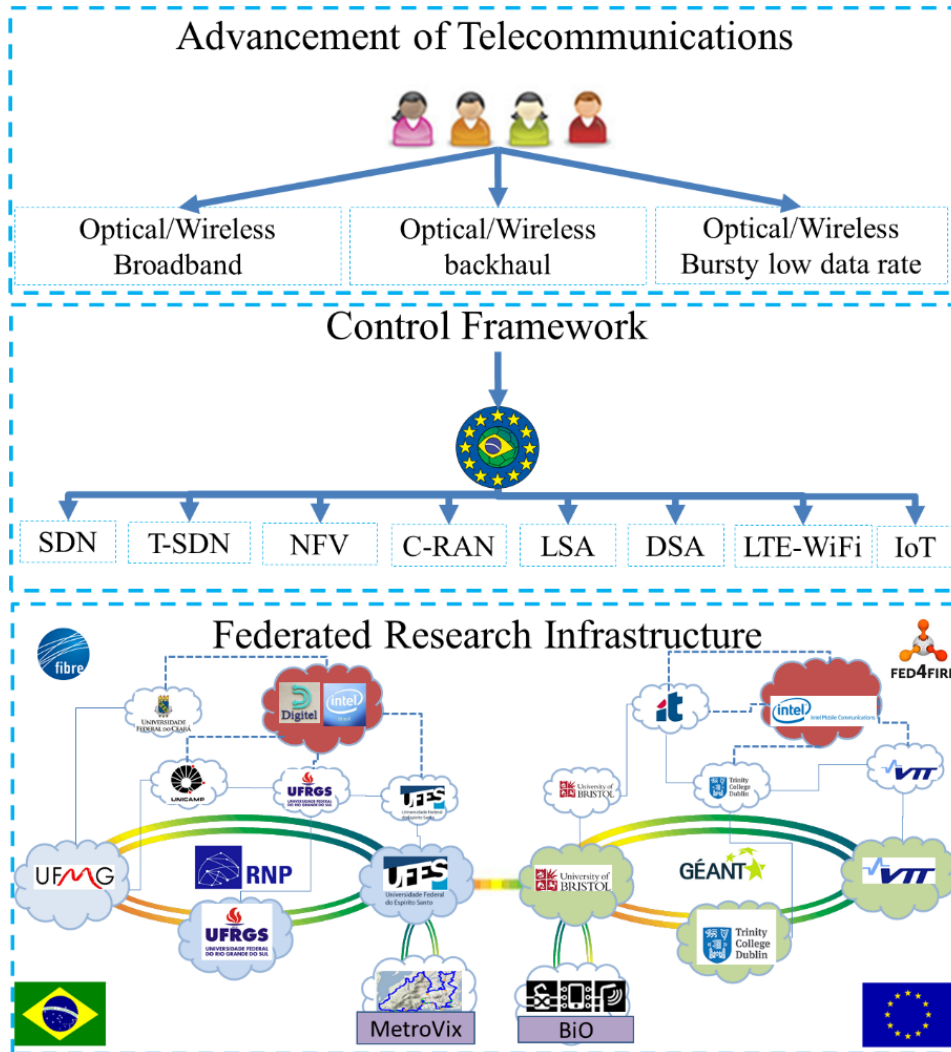

9th December 2015
Brussels, Belgium

FIRE Forum 2015

Brussels, 9 December 2015

FUTEBOL will develop and deploy research infrastructure, and an associated control framework for experimentation, in Europe and Brazil, that enables experimental research at the convergence of optical and wireless networks

Providing a new infrastructure and control framework

- Wireless and optical domains
- Research
- Education

Enabling innovative research

- Industry-driven
- Disruptive / new spaces
- Research at the boundary of wireless and optical networks

Improving end-user experience

- Consumers: tailored end-to-end networks
- SME/Industry: Integrated control of wireless and optical resources
- Academia: unified wireless/optical experimentation
